

A new way for IST research project and standards bodies to interface, and maximize benefits from their mutual cooperation

Agenda and targeted objectives of the FP6 IST call 2 Kick-Off Meeting

Bruxelles, 16 June 2004

Tatiana Kovacikova

representing ETSI - COPRAS WP 3 lead partner

Kick-off meeting – targeted objectives

- Jump start cooperation between selected projects and standardization working group
- Share information on ongoing standardization work projects can benefit from
- Clustering (where appropriate) with other IST projects to identify shared interests and roles in collaborative approach
- Discuss concrete benefits individual or clustered projects can benefit from when joining COPRAS
- Define follow-up steps

Tailor-made Standardisation Action Plans will be developed with projects

- Identify steps to be taken by projects and standards bodies
- Provide a realistic path towards standardization based on the experience and support of COPRAS
- Identify realistic objectives in view of available resources
- Define technical & dissemination activities
- Define tasks to be completed by projects and COPRAS

Meeting agenda - afternoon

Thematic break-out sessions

- 13:30 Short introduction by the invited projects on the scope of their projects and the possible standards related issues they will touch upon
- 14:30 Short overview on planned or ongoing standardization activity in relevant areas as well as on relevant COPRAS activity
- 14:45 Coffee break

Plenary meeting

- 15:15 Definition of:
 - Generic aspects of interfacing between IST projects and standardization that should be addressed by COPRAS
 - Specific areas/issues where COPRAS support is needed
 - Cooperation & clustering possibilities between research projects, COPRAS and standardization working groups;
 - Next steps
- 15:45 Review break-out sessions, summary of achievements and presentation of agreed next steps
- 16:00 Close of the meeting by Mr. James Boyd, CEN Management Centre and a the COPRAS Project Co-ordinator

Project clustering for thematic break-out sessions

- Cluster A: GRID-based systems
 - Meeting room: Lorentz
 - Session chaired by Rigo Wenning, W3C
 - UniGridS
 - Data Mining Grid

Project clustering for thematic break-out sessions

- Cluster B: Embedded systems
 - Meeting room: (Galileo)
 - Session chaired by Scott Hansen, Open Group
 - DECOS
 - HYCON
 - SMMART

Project clustering for thematic break-out sessions

- Individual meeting with the **EUROPCOM** project (Improving risk management)
 - Meeting room: Archimedes
 - Session chaired by Tatiana Kovacikova, ETSI

Project clustering for thematic break-out sessions

- Individual meeting with the **wear@IT** project (Mobile user and worker)
 - Meeting room: (Sibelius)
 - Session chaired by Bart Brusse, CENELEC

Project clustering for thematic break-out sessions

- Individual meeting with the **EIAO** project (e-Inclusion)
 - Meeting room: Cervantes
 - Session chaired by James Boyd, CEN

We hope to this kick-off meeting is a rise of a fruitful cooperation between COPRAS, standardization bodies and projects in the Communication and network technology areas

Thank you for your attention!
